The International Order of The Rainbow for Girls is a
501 (c) (3) organization
and contributions to it are tax deductible to the extent allowed by law.

**Supreme Assembly
International Order of the Rainbow for Girls
Century Campaign**

The Organization

The International Order of the Rainbow for Girls (IORG) was founded in 1922 by W. Mark Sexson in McAlester, Oklahoma, and has grown to become an international service organization for girls ages 11 to 20. Rainbow prepares girls for responsible and purposeful adulthood. With distinguished alumnae including prominent professionals from all walks of life, Rainbow has active assemblies in forty-six states and eight countries around the world. Through leadership training, challenging study, and meaningful public service projects, girls learn important life lessons. In addition to countless hours of community service, members raise hundreds of thousands of dollars each year for world class charities. The International Order of The Rainbow for Girls is a 501 (c) (3) charitable organization.

The Supreme Temple

The Rainbow Temple was built in 1951 in the heart of McAlester, Oklahoma, where it endures as a historic landmark and the center of Rainbow activity. Designed by our founders as a working headquarters of functional offices, supply and shipping departments, it also included archival and ceremonial capabilities. Built with funds collected “by Rainbow Girls for Rainbow Girls”, this historic building houses artifacts from Rainbow Girls all over the world. A visit to the Rainbow Temple is the dream of a lifetime for every Rainbow Girl, past and present - a place she is welcome to call her own and find her treasures on display.

The International headquarters is a three story brick, steel and concrete structure flanked on either side by half circle windows composed of seven sections of glass windows representing the seven colors of the Rainbow. Materials for the building came from throughout the world: red granite from Minnesota, brick from Texas, stone from Indiana, marble from Vermont, terrazzo from Italy, hardware from Connecticut, tile from California, doors from New York, windows from Florida, and roofing and flooring from Oklahoma. This amalgamation of materials symbolically reflects the international significance of the organization. It is architecturally significant as an excellent example of mid-twentieth century Moderne Style building and a unique architectural representation of IORG. The Supreme Temple was added to the National Register of Historic Places in 2013.

The Supreme Temple serves as Rainbow’s world-wide headquarters. Our staff direct and support the business affairs of Rainbow, maintain our database and records, manage our supply and shipping departments and provide administrative support for all programs and projects from this location.

Restoration and Improvement

The Rainbow Temple has been gently used and cared for these six decades in order to maintain it as a center for all Rainbow Girls throughout the world. Nevertheless, resources are now needed to replace the original HVAC system and take other measures to preserve the building and its contents. Since conducting a comprehensive assessment of the building in 2012, the roof was replaced, interior repairs and repainting were done, and plumbing and electrical issues addressed as funds were available. Further restoration has been divided into three phases:

- ~ Phase I - The largest and most urgent issue facing the Supreme Temple is the replacement of the original HVAC system. The expected life span of the HVAC system was 35 years, and the system is now over 65 years old. Major repairs to the system through the years have proven costly and resulted in our inability to maintain sufficient funds to replace the system. It is now a critical matter as replacement parts have become unavailable, making repairs impossible to perform. The HVAC system must be replaced immediately.
- ~ Phase II – Re-glazing and sealing windows and brick grout will prevent leaks and damage to the interior of the building, as well as reduce utility bills and allow the new HVAC system to be more energy efficient.
- ~ Phase III – Establishing a maintenance account will provide funding for maintenance and future major repairs and updates.

Century Celebration

As the International Order of the Rainbow for Girls celebrates its’ 100th anniversary in 2022, the Supreme Temple will be celebrating its’ 70th anniversary. This celebration will recognize the accomplishments of the past while embracing the opportunities of the future. Our Supreme Temple, the heart of our organization, must be preserved for future generations. Together, we can accomplish our goals, and the completion of the Century Campaign will be the testimony to the strength and determination of generations of Rainbow Girls who have learned that, by working together, ***anything is possible.***

Campaign Goal: Raise \$600,000 by Centennial Celebration

- **Phase I: Raise \$390,000 to replace HVAC system by 2018**
- **Phase II: Raise \$110,000 by 2020 to seal windows and brick to prevent further damage and improve energy efficiency**
- **Phase III: Raise \$100,000 by 2022 to maintain the Supreme Temple for generations of Rainbow Girls to come**

**Supreme Assembly, IORG
Heating, Ventilation, Air Condition (HVAC) Update 7
October 5, 2018**

The International Order of the Rainbow for Girls (IORG) reports the following:

- Phase I of the Century Campaign has been completed!!!
- The bank loan that was secured to insure the full payment of the project has been repaid in full. The bank fees associated with the loan have also been repaid to Supreme Assembly.
- IORG borrowed funds from the Raymond James cash account to make the loan payments however, only one loan payment to the bank was made before the loan was repaid. The funds used for the one loan payment have been repaid to the IORG Raymond James account.
- Donations were received at and following the recent Supreme Assembly Session in Hampton, Virginia from various jurisdictions, individuals and fraternal organizations. Fraternal donations included the National Sojourners and the General Grand Chapter, Order of the Eastern Star.
- Remaining donations have been credited to Phase II of the Century Campaign.

The final recap of Phase I:

Original Estimate for HVAC System	\$ 390,000.00
Actual Cost of HVAC System	
Lambert Mechanical (Bid)	\$ 349,800.00
PSO Electric	8,625.00
Asbestos Removal	16,200.00
Architect	900.00
Carpenter	125.00
TOTAL	<u>\$ 375,650.00</u>
Pre-Construction Phase	\$ 43,836.35
Bid-Work Cost	3,202.80
HVAC System/Installation	375,650.00
Raymond James cash account payment	1,455.36
Loan Fees and Interest	1,207.67
Remaining Donations credited to Phase II	784.25
TOTAL	<u>\$ 426,136.43</u>

Phase II				
			\$ 784.25	Carryover from Phase I

Supreme Assembly, IORG
Heating, Ventilation, Air Condition (HVAC) Update 6
June 20, 2018

The International Order of the Rainbow for Girls (IORG) reports the following:

- Heating the Supreme Temple was extremely difficult during the winter as more parts failed in the old system. Luckily no pipes leaked or froze during this period but space heaters were essential during the work day for the staff.
- Lambert Mechanical has been working on the installation of the new HVAC system which is approximately 90% completed. Luckily the cooling system portion is 100% completed.
- As reported previously, the bid price did not include necessary electrical service upgrades which had to be determined by PSO Electric Company and work performed at IORG expense. Initially these upgrades were estimated to possibly cost as much as \$20,000.00 however, the work came in at a cost of \$8,625.00.
- The Century Campaign materials continue to be sent to prospective donors.
- Prospective grants have been pursued but due to the current economic climate, funding priorities have shifted away from historic preservation.
- The Special Projects Director and Supreme Recorder are working with the McAlester community to increase awareness of our Supreme Temple and the Century Campaign.

A loan has been secured to insure the full payment of the project. It is hoped, however, that sufficient donations to complete Phase I can be secured to minimize, and possibly eliminate, the loan expense. To date we have received 73.71% of Phase I. Additional donations are still needed to reach our goal.

Supreme Assembly, IORG
Heating, Ventilation, Air Condition (HVAC) Update 5
February 23, 2018

The International Order of the Rainbow for Girls (IORG) reports the following:

- Additional parts have continued to fail, with no replacements available, in the existing HVAC system and heating the Supreme Temple has been difficult during the cold weather. The new system must be installed before the hot summer months as the air-conditioning barely made it through the summer months and is no longer working.
- Four firms submitted bids for the new HVAC system.
- The bids were opened and reviewed by the architect hired by IORG to manage the project in consultation with the engineering firm who prepared the specifications.
- The bid was awarded to Lambert Mechanical who submitted the lowest bid which was \$349,800.00. The bid price did not include necessary electrical service upgrades which must be determined by PSO Electric Company and work performed at IORG expense.
- The new HVAC equipment has been ordered and work has begun on the project.
- The Century Campaign materials sent to all International Sponsoring and Collateral Bodies has been successful. To date, fraternal donations have been received from The General Grand Council of Cryptic Masons, The Supreme Council, NMJ, USA, Ancient Accepted Scottish Rite, The Supreme Council of Ancient and Accepted Scottish Rite of Freemasonry, Southern Jurisdiction, U.S.A. and Shriners International.
- A very generous donation of stock has been received from Debby & Joe Kier. This stock was sold and the proceeds placed in the designated HVAC account to be used for this project.
- The Special Projects Director and Supreme Recorder were successful in obtaining a \$39,000.00 grant from the Puterbaugh Foundation.

The Puterbaugh Foundation does not award funds directly to an organization but rather makes a direct payment to the contractor. However, the \$39,000.00 is reflected in the financial report attached. Several other possible grants have been identified and are being pursued. The Special Projects Director met with representatives of the City of McAlester about joint grant opportunities for historic places in downtown McAlester.

To date we have received 65.42% of Phase I. Additional donations are still needed to reach our goal.

Supreme Assembly, IORG
Heating, Ventilation, Air Condition (HVAC) Update 4
December 12, 2017

The International Order of the Rainbow for Girls (IORG) reports the following:

- The bid for the new HVAC system has been prepared and distributed to HVAC firms interested in submitting a bid for the project.
- A walk – through with prospective HVAC firms wishing to bid on the project was held at the Supreme Temple with our engineer and architect present to answer questions.
- Century Campaign brochures continue to be requested.

IORG will continue to send updates as the project continues. Please review the financial report of the HVAC account which is accompanying this update sheet.

Supreme Assembly, IORG
Heating, Ventilation, Air Condition (HVAC) Update 3
November 13, 2017

The International Order of the Rainbow for Girls (IORG) reports the following:

- The engineering firm hired by IORG has finalized the bid specifications for the new HVAC system. The architect hired by IORG who will be managing the project is reviewing the HVAC specifications.
- Once the HVAC specifications have been reviewed, the bid will be prepared and distributed to HVAC firms wishing to bid on the project.
- Century Campaign information was sent to all members of the Alumni Association.
- The Century Campaign brochures continue to be requested from the jurisdictions and members of the Supreme Family.
- The Century Campaign information on the website is proving to be effective in soliciting donations.

IORG will continue to send updates as the project continues. Please review the financial report of the HVAC account which is accompanying this update sheet.

11/09/17	\$ 2,000.00		\$ 82,028.59	donations received Nov. 10, 2017
11/13/17	\$ 11,100.00		\$ 93,128.59	donations received Nov. 13, 2017
Phase I				
			\$ 93,128.59	Carryover from Pre-Construction Phase

Supreme Assembly, IORG
Heating, Ventilation, Air Condition (HVAC) Update 2
October 16, 2017

The International Order of the Rainbow for Girls (IORG) reports the following:

- The engineering firm hired by IORG is finalizing the bid specifications for the new HVAC system. After the bid packet is complete, the project will be put out for multiple formal bids. When the deadline for submission is reached, the bids will be reviewed by the engineers and historic architects. Once the bids are submitted, prices are good for only a thirty day period after which a selection of the HVAC firm is made and construction is begun.
- The Century Campaign information has been placed on the Supreme Assembly section of the website.
- Century Campaign brochures have been printed and are being sent to jurisdictions and individuals upon request for distribution to their membership.
- A letter of request for donations and a copy of the Century Campaign brochure have been sent from the Supreme Worthy Advisor to all Masonic Appendant Bodies.
- IORG has been pledged a gift of stock as a method of giving. Additional in kind donations will be gratefully accepted.

The pre-construction phase of the project has now been fully funded. This will open up the opportunity for additional grants from entities that did not offer opportunities for pre-construction funding. The Special Projects Director and Supreme Recorder are continuing their work on obtaining grants. As you are aware, through the years, multiple requests have gone out to the membership and alumni asking for those with experience in grant writing to contact the Supreme Office. IORG is again making this request and would welcome assistance in this area.

IORG has also received several pledges. These pledges are not included in the financial report until actualized. However, the pledges to date total \$112,000.00.

Supreme Assembly, IORG Heating Ventilation, Air Condition (HVAC) UPDATE 1 August 9, 2017

The International Order of the Rainbow for Girls (IORG) reports the following:

- IORG worked with the Architect from the Oklahoma State Historic Preservation Office regarding the need to replace the HVAC system. Guidelines were sent to us, and it was recommended that we obtain the services of a historical architect so that we would be in compliance with our historical designation as well as understand the challenges in retrofitting a historical building with a new HVAC system.
- IORG obtained the services of a historical architect and the modeling and animation has been completed.
- IORG has engaged the services of a local licensed architect who will be supervising the bid and construction process and under whose professional license the work will be completed. This eliminates IORG from liability if the HVAC system is installed incorrectly or does not meet specifications.
- IORG, in consultation with our architect, has engaged an engineering firm to perform the necessary Mechanical, Electrical and Plumbing (MEP) Assessment which has been completed. *[Note: The bill was paid and then submitted to the Oklahoma Preservation Society and the funds reimbursed from a \$1,500.00 grant award to IORG which meant the MEP Assessment will have cost IORG \$1,750.00 instead of the full \$3,250.00 fee.]*
- The Supreme Executive Board approved the new system and the engineering firm was directed to prepare the bid specifications. The engineering firm submitted a proposal that we have accepted for the design, development, construction documents, and bidding and construction phase of the project. *[Note: The cost of \$21,000, which we have on hand, will be paid upon completion so the bidding process can begin.]*
- This is the current status of the HVAC project.

The MEP Assessment included an estimated cost for the project of \$390,000.00. IORG was told that we are operating a 65 year old system that was designed to last 35 years. The assessment stated that the Supreme Temple was in very good condition overall with the exception being the HVAC system. IORG was told that the electrical system would need to be updated and that cost would be included in the bid.

The Special Projects Director and Supreme Recorder have been working on obtaining grants. The challenge is that many foundations do not award grants for the pre-construction phase which must be completed prior to the actual HVAC installation. They wish to see that actual construction has begun before committing funds. This process is ongoing.

The question has been raised as to the disposition of funds raised through the years for “heating and air”. A review of available records of these funds from 2002-2016 has been conducted and it was found that for this time period \$76,244.32 was expended for repairs and replacement of parts to the HVAC system. These figures were reviewed by the engineers and architects who stated the amount was in keeping with the replacement parts found and the overall condition of the system which has lasted over twice as long as its’ expected life cycle.

The following is a current financial report of the HVAC account:

Financial Report of the HVAC account				
Income	Expense	Balance	Date	Description
		\$ 21,853.26	05/01/16	
	\$ 7,500.00	\$ 14,353.26	06/03/16	paid to local historical architect
\$ 165.00		\$ 14,518.26	12/31/16	donations received May - Dec. 2016
\$ 9,455.00		\$ 23,973.26	04/30/17	donations received Jan. - April 2017
\$ 40,000.00		\$ 63,973.26	05/02/17	per SEB transfer from Temple Fund
	\$ 3,250.00	\$ 60,723.26	05/05/17	paid for MEP assessment
	\$ 5,325.00	\$ 55,398.26	05/05/17	paid to local historical architect
\$ 12,607.14		\$ 68,005.40	08/09/17	donations received May 2017 up to date
